Re-Roofing Questionnaire

Due to the differences encountered in roof structure design, the City of Dublin requires the completion of this form in conjunction with submittals for a re-roofing permit application. This information will allow the Building & Safety Division Staff to determine whether structural calculations will be required for individual re-roofing permit applications. Based on the review of this questionnaire, staff may require the submittal of engineered calculations and roof framing plans designed and prepared by a State of California licensed Engineer.

Date:	Building Permit No.:
Job Address:	
PROPOSED ROOFING MATERIAL	
Type / Manufacturer	Weight (lbs) / ICC Report No.:
EXISTING ROOFING MATERIAL
