Note: Actual property value data not available in California.

- (1) California cities do not set their own direct tax rate. The state constitution establishes the rate at 1% and allocates a portion of that amount by an annual calculation, to all the taxing entities within a tax rate area.
- (2) The City-wide Direct Tax Rate is an average, the actual tax rate for each property varies according to its tax rate area. This average tax rate is net of State Shifts of local property tax revenue to Education and net of Admin fees.
