Resources to Help Prepare Your Small Business Before Disaster Strikes

According to the Institute for Business and Home Safety, an estimated 25 percent of businesses don't open again after a major disaster. However, smart planning can help you keep your business running if disaster strikes. The U.S. Small Business Administration (SBA) has put together checklists and safety tips to help you take the right steps to prevent and prepare for a flood, fire, earthquake or cyber attack as well as resources to inform you where to get aid if a major disaster strikes.
