

**Community**, Tricia George, 2009

Located at the Shannon Community Center preschool area, “Community” consists of simple building blocks painted in a trompe l'oeil (to deceive the eye) . The blocks symbolically represent the stages of development. Each block builds on our past in order to create our future, thus creating the stability that is found within a community. The game of jacks is also included in a trompe l'oeil style in order to represent the unpredictable nature of life and how all our choices affect one another.
