

**Dogs of Dublin, Tellart, 2020**

Dogs of Dublin is a colorful and community-generated art piece. This work consists of a series of brightly-colored laser-cut steel silhouettes of dogs, including many who actually use the park. The silhouettes are arranged around the park's perimeter fencing. Their coloring varies, following an ombre pattern inspired by the colors seen at dusk over the park's nearby hills. 80 silhouettes line almost 500 feet of fence line along Amador Valley Blvd.
