

Shawn Costello

Occupation: Game Tech

I am Shawn Costello, This is my 32<sup>nd</sup> year being on the ballot running for office in the city of Dublin. That being said, no matter which office I run for, my goals are the same, to make Dublin the best city in the state. We need to cut down or stop all the growth happening in Dublin, it is really getting out of hand, the developers are taking over our city. All the new Apartments and town homes are priced for the wealthy, and not for persons with disabilities and low income. We are running out of water for residents and businesses, the more residential we build is making it hard on water supply, and traffic overload for the city. As I said 30 years ago, all that drive vehicles needs to slow down and not be in such a rush, people in crosswalks should not have to worry about there safety of being hit by vehicles.

I think it is very important that all emergency personnel, feel safe in our city without being injured from violent acts of crime, for they play a huge role in our cities future.

Lucrecia Carolina Deleon  
CANDIDATE STATEMENT OF INTENTION

Occupation: Insurance Broker

I am running for Dublin City Council because I care deeply for my community and its residents. I am a business owner, mother of a Gen-Zer, and have called this city my home for 16 years.

There are many challenges we are facing as a community— special interests being placed before the public's interests on house development projects and lack of coordination between the city and school district.

Now more than ever, Dublin deserves leaders who will represent ALL community members and lead with integrity as they find thoughtful solutions to these challenges. I am committed to be that quality of leader and advocate for policies that will make our community stronger and a place of belonging for all.

With your support, when elected, I promise to bring the energy our Dublin City Council needs, embrace what makes our city unique, and advocate for all our residents.

I will not let you down!

Lucrecia Carolina Deleon For Council Member 2020

For Member of the City Council

Razi Hasni  
Occupation: Businessman/Realtor

AGE: 42

I love this city and its people and I thoroughly enjoy living and working here.

I would like to increase our city's support for small businesses by adding resources to improve upon a downtown Dublin plan that will increase the city's appeal to residents and create and keep more sales tax revenue within our city borders.

As we continue to develop our great city, my focus will also be on ensuring a measured approach to how much housing and retail development we allow in the future and balancing this growth with maintaining our city park spaces and adequate infrastructure.

I will also continue to emphasize more support for our local law enforcement agencies and their staff by allowing for open community dialogue to build more bridges and foster a supportive and loving environment for all our citizens to thrive and feel safe.

I respectfully ask for your support and thank you in advance for your vote.

A vote for me is a vote for a happier and more prosperous Dublin.

Thankfully yours,

Razi Hasni

Sherry Hu

Occupation: Educator/ Entrepreneur/Engineer

Since choosing Dublin as our forever home over a decade ago, my husband and I have enjoyed raising our children, who both attend Dublin's excellent public schools. I love our city and I'm committed to preserving our high quality of life for generations to come.

Still, Dublin is facing many challenges including community health and safety, fast-paced growth, and short-term economic downturn. My PhD in Architectural Engineering and BS in both Environmental Engineering and Business, as well as my background as an Assistant Professor and founder of businesses and non-profits, all equip me to take on these challenges.

If elected, I will work with our community to reduce out of control housing development, overcome COVID-19, increase high paying jobs, rejuvenate small businesses, and fight for social justice reform.

No matter the issue, my guiding principles will be to listen and collaborate—listen to you and your concerns, and collaborate with local leaders and experts in our community to find the best solutions for Dublin. I will be an independent leader, always be accessible to you and represent your best interest. Please visit [www.sherryhu.com](http://www.sherryhu.com) to learn more or contact me.

## **Mike McCorriston Candidate Statement**

### **Corporate/Nonprofit Treasurer**

Dublin needs leaders with understanding, experience and vision to guide our diverse community. My wife and I have lived in Dublin for 26 years and raised our two daughters here. I've had a successful 35-year career overseeing the financial resources of large multi-national corporations. I serve on the City of Dublin's Human Services Commission and a Tri-Valley nonprofit affordable housing commission. I'll put my experience, knowledge and care for our community to work for you.

1) Smart development is critical for our growing city to ensure its infrastructure needs are met. I'll focus on solutions to reduce traffic and overcrowding, while preserving remaining open space and conserving natural resources.

2) Fiscal sustainability is imperative to address Dublin's dynamic needs, especially given the COVID-19 and economic crises. I'll guide the city to solve financial imbalances without cutting desperately needed services.

3) Affordable housing must be a part of our development strategy, and I'll focus on finding creative solutions so Dublin teachers, essential workers, new families and seniors can afford to live here. It would be my honor to represent you on Dublin's City Council. Learn more about my volunteer work and endorsements at [www.Mike4Dublin2020.com](http://www.Mike4Dublin2020.com)

Sri Muppidi  
Occupation: Technology Investor

I'm a long-time resident of the area, having lived here for nearly 15 years. I currently work as a venture capitalist and invest in early-stage technology companies, helping boost local employment and economic growth. I also founded and run The Loop, a non-profit initiative aimed at increasing the number of women launching startups.

I've been long committed to public service. Previously, I worked on human rights policy at the US Department of State, conducted economic analysis at the US Federal Reserve and World Bank, and researched emerging technologies for the 26th U.S. National Security Advisor. I also volunteered on campaigns to elect Congressman Jerry McNerney in 2010 and 2012 and presidential candidate Hilary Clinton in 2016.

Additionally, I reported on business and technology at The Economist. I hold two degrees from Stanford University, with a BA in Economics with honors and an MS in Management Science and Engineering.

I hope to bring a fresh perspective and new ideas to Dublin as the world navigates through an unprecedented time. I'm committed to serving the needs of Dublin residents and will prioritize public health, affordable housing, economic growth, and accessible education.

**FOR MEMBER OF THE DUBLIN CITY COUNCIL**

**DAWN PLANTS**

**AGE: 66**

Occupation: Retired Construction Administrator

As a 40 year Dublin resident, I love this city. I watched it grow and become successful. Yet now we have become overcrowded with increased traffic, crime, crowded schools and pollution. It's time for the rapid development in Dublin to slow down, to assess what is best for our future, before it's too late.

I have worked in development, project acquisitions and construction in the Tri Valley for 30 years, so have the experience and insight needed to protect our community from questionable development. As a member of the Dublin Planning Commission since 2019, I have witnessed the problems and personal agendas. Promised changes never happened. Impulsive growth has created problems. Our City Council should be focused on the community as their first priority. Quality development can bring jobs and revenue to Dublin.

I'm not a career politician or financed by Developers. I'm a concerned resident who has the knowledge and determination to find practical solutions and make competent decisions, based on what is best for Dublin's residents. We must ensure Dublin remains a desirable place to live for years to come.

Dawn Plants

Kashef Qaadri

**Occupation:** Scientist/Cloud Architect

I was born in Washington, D.C., and moved to the Bay Area 15 years ago. I enjoy spending time with my family, playing tennis, and running. With everything Dublin has to offer, I'm proud to call it my home!

I am a scientist by training and currently lead Cloud Strategy at a life sciences research company. Previously, I led business development, commercial operations, and product at several bioinformatics companies. This experience will be used to enhance fiscal responsibility & collaborate with neighboring cities.

With 65,000 residents calling Dublin home, I promise to be the voice for each and every one of you. I promise to represent you with competence and integrity!

My plan is simple, let's improve: our safety & well-being, our resilience to deal with various circumstances, and our environmental and economic sustainability.

Through community engagement and exploration, we can focus on the proper allocation of resources. Not by simply cutting budgets, but by building Dublin's resiliency for the future & addressing issues such as improving neighborhood safety, attracting, supporting, and diversifying businesses, and improving outdoor spaces.

If elected into City Council I promise to work for a safe, resilient, and sustainable Dublin!

For Member of the City Council

Samir Qureshi

Age: 51

Occupation: Global Operations Executive

The city of Dublin is a place that my family and I have proudly called home for the past nine years. Professionally, I have been working for 28 years and currently as VP Global Sales Operations, managing a large team and budget. I have also served on the Dublin Planning Commission as well as been a School Board representative and sat on Commissions in other cities.

My admiration for this city has sparked my motivation to be a part in improving the quality of life here. I am running for City Council with the intent to improve economic development, make housing affordable, strengthen our schools, focus on social issues, address traffic concerns, and overall look at smart and sustainable growth. Collaborating with fellow council members, city staff, and community members is very critical to achieving our goals and is something I strongly believe in.

I am confident that my professional and personal experiences will benefit in the way we can revise and better Dublin's financial situation. I respectfully ask for your support and thank those of you who cast your vote for me. Please know that I am always available to listen to ideas and suggestions.
