## 40 Years of CommUNITY

The city of Dublin is known as the crossroads of the Bay area. The Native Americans were the earliest residents of Dublin. The city of Dublin was formed on February 1<sup>st</sup> 1982.

In the past 40 years, Dublin has seen lots of changes. Dublin has wonderful schools, beautiful mountains, and an awesome community. As a community, we always help each other and we stay united.

Dublin makes a difference in everyone's life when it comes to difficult times like the pandemic. During the pandemic, we stayed safe by wearing masks and following the rules. Dublin teachers helped us by Zoom classes so that we can study.

As a Dublin resident, I enjoy St. Patrick's Day parades, running a 5K marathon, trick or treating, easter egg hunts, and other activities where we can celebrate as a community.

I'm proud to be part of the Dublin community by helping others and treating them the way they want to be treated.
