ELIGIBILITY CRITERIA

SB 330 is intended to encourage development of housing projects by vesting codes, policies, and fees for the project at the time a *complete* Preliminary Application is submitted to the City. A Preliminary Application for a housing development includes residential units, a mix of commercial and residential uses with two-thirds of the project's square footage used for residential purposes, or transitional or supportive housing. Within 180 days of submitting a *complete* Preliminary Application, the applicant must submit a formal application for a Site Development Review Permit, Conditional Use Permit, Tentative Map, or any other land use entitlement required for the project. After submittal of all the required information, if the applicant revises the project to change the number of residential units or changes the square footage of construction by 20 percent or more, excluding any increase resulting from density bonus units allowed under [Density Bonus Law](#), the applicant must resubmit the required information so that it reflects the revisions.

If the City determines that the Preliminary Application is incomplete pursuant to [Government Code § 65943](#), the applicant must submit the specific information needed to complete the application within 90 days of receiving the City's written incompleteness letter. If the applicant does not submit this information within the 90-day period, then the Preliminary Application shall expire and have no further force or effect. Please note:

- SB 330 does not apply to projects that require Rezoning or General Plan Amendments.
- SB 330 projects are subject to the requirements of the California Environmental Quality Act (CEQA).
